

STEM Opportunities For Elementary Students

The Study Bar

The Study Bar offers an exciting summer experience for elementary students to dive into the world of STEM.

From coding and robotics to science experiments and engineering challenges, our week-long camp is designed to engage young minds in hands-on learning and fun exploration. Join us this summer and watch your child's curiosity and creativity come alive at The Study Bar!

Students have the opportunity to:

- Develop coding skills
- Conduct science experiments
- Expand their math skills
- Design games & apps
- Create Minecraft mods
- Build and program a robot
- Learn 3D design and printing
