

# Dungeons & Dragons

Does fantasy, storytelling, adventure, role playing, interest your teen? Dungeons and Dragons builds connections, social skills, mathematical thinking, and fosters a problem solving oriented mindset. Kids who play D&D get to let their creativity run wild in an immersive and engaging world with their friends and peers. The Study Bar is excited to offer two groups led by our resident dungeon masters for both new and experienced players!

## Details

The Study Bar is excited to once again offer D&D! With two separate sessions we are proud to deliver exciting role playing fun to kids of all ages and experience levels. Space is limited!
